Best service to the guests can be provided only by maintaining a clean and hygienic environment: Governor

The Governor of Arunachal Pradesh Shri JP Rajkhowa visited the Arunachal Airport Guest House at Guwahati on 7th March 2016. Continuing his effort to strengthen the State infrastructure outside that State so that people, particularly the common public of the State have comfortable stay there, the Governor accompanied by State Government officials, inspected the Guest House. It found that it has lot of scope for improvements including reinforcing of the boundary wall, renovation and beautification, interior infrastructural refurbishment through redoing & painting of walls, floor works, redoing of shabby electrical fittings in proper and complete manner, changes in other ancillary structures etc. It was found that there was a lack of maintenance on the part of both the government officials and the house owner. He wished that the matter may be resolved soon. The officials informed him that there were only three employees for the Guest House which is functioning round the clock throughout the year. They requested for increase in the workforce at various levels of the establishment.

The Governor said that the best service to the guests can be provided only by maintaining a clean and hygienic environment.

The Governor advised that a separate room may be cranked in the existing or such set up by the Department of Tourism which will work as a ‘Arunachal Information Centre’, just like the existing one in the Guwahati Airport for the first hand information to the visitors of the State.

It may be recalled that the Governor and Chief Minister had paid surprise visits to the Deputy Resident Office, Guwahati and they suggested making it into a tourist cum visitor oriented office.
